- eCommerce and eGovernment portals
- Search engine optimization
- Integrated Content Management Systems(Joomla!, WordPress)

MAJAN DYNAMICS' customized designs are tailored to your requirements and enjoy the security of being validated by the World Wide Web Consortium (W3C). We place a premium on understanding your business objectives and work with you to deliver solutions that reflects your organization's web needs.

"I choose a block of marble and chop off whatever I don't need"

*Francois-Auguste Rodin
Sculptor*

SCALABLE, FUNCTIONAL, FAST!

Uninterrupted uptime and availability of mission critical applications and data is a business imperative. **MAJAN DYNAMICS'** web hosting infrastructure, located in our 'best of breed' facility offers a feature-rich service offering you high-speed servers, lots of disk space to host your web pages, and scripting/database functionality so you can create a more compelling site.

Our hosting solution specializes in the design, sourcing and delivery of customized hosting through:

- Site updates and maintenance
- Hacker Insurance: site monitoring and defacement monitoring
- Email: domain name email addresses
- Dedicated servers monitored 24x7
- Redundant Ethernet architecture
- High speed internet connection in a highly secure operating environment
- Web Statistics providing comprehensive reports on site traffic

MAJAN DYNAMICS' fully redundant data centre, shares visitors to your website amongst multiple load balancers and web servers, maximizing your web site's performance, speed and availability!

"When I took office, only high energy physicists had ever heard of what is called the World Wide Web....

Now even my cat has its own page.."

*Bill Clinton,
42nd President of the U.S.A.*

PERSONAL, STRUCTURED, SEAMLESS!

Our Call and Contact Centre is the vibrant heart of our corporate offices. It is alive with people and the technology needed to deliver marketing and business development solutions for our clients. Our investment in a sophisticated phone system featuring the latest Computer – Telephony interface capability enables **MAJAN DYNAMICS** to run a range of inbound and outbound client campaigns including:

- 55 seat fully functional call centre
- Integrated communications centre
- Trained multilingual staff
- Inbound, Outbound and Help Desk Service Lines
- Customer Service, Sales Support & Business Support
- Constantly monitored network availability
- Data security supported 24x7 NOC and SOC

MAJAN DYNAMICS ensures your business's technology infrastructure is responsive and seamlessly integrated thanks to our trusted advisor and solution builder business model.

"The best way to predict the future is to implement it."

*David Heinemeier Hansson Danish
Web Developer*
